

ACM Hack

Capture The Flag

Sponsorship Package

Dear Potential Sponsor:

Thank you for your interest in Capture the Flag (CTF), the largest student-run computer security competition in California. Student organizations from **UCLA** and **Stanford** will be leading the event, and we'll be bringing on other top computer science schools to join us as well. We will feature a wide range of challenges for hackers of all experience levels: SQL injections, binary exploitation and reverse engineering, security quiz questions, and more.

Why sponsor CTF?

We bring together the most creative and brilliant students who are passionate about building secure infrastructure and applications. They belong to cyber security clubs, white hat groups, and CTF teams.

We will bring you the most hireable candidates, brand recognition, public visibility and an opportunity to educate the next generation of software engineers on the importance of security.

Summary of Perks

- Contact information and resumes of participants on winning teams
- Opening or closing speech
- Company logo on main CTF page and our website: hackucla.com (11.5k views and 807 unique users in the first month)

See the next page for details on how you can support us and the concrete benefits you'll receive for doing so.

Sponsorship Options

Create your own sponsorship package from the options below.

OPENING SPEECH

Speak during the opening ceremony. Receive an extra 13.37% off any non-speech item. Discounts are additive. Limited to 1 sponsor, first come first serve.

\$500

CLOSING SPEECH

Speak during the closing ceremony. Receive an extra 13.37% off any non-speech item. Discounts are additive. Limited to 1 sponsor, first come first serve.

\$500

**CONTACT INFO & RESUMES OF
WINNING TEAM(S)**
\$200

ALL COMPETITOR PORTFOLIOS
\$400

**HACK WEBSITE
(HACKUCLA.EDU)**
\$150

**COMPETITION
WEBSITE**
\$150

**BANNERS AND
POSTERS**
\$100

Have other cool stuff to bring?

- Food
- Interview or a company tour for winning team
- Press coverage
- Prizes
- Swag
- Networking equipment
- Infrastructure

We also highly encourage you to send engineers and recruiters out to any of the participating schools to:

- » Identify candidates for current and future openings
- » Have fun competing themselves and setting the standard (though they will not eligible for winning prizes)
- » Mentor and guide competitors with hints, tips, and tricks
- » Show that they belong to the best company when it comes to security.
